

Something's Got to Give 130 bpm

When the black man took the platform, a white white smile in rhetoric haze
Stood there, mindful of others before.

Thanked the blessed Texan, then number forty four
Told us things would be different there was gonna be a change
So have no fear America, something's gotta give around here

When the Fat Cats need appeasing. Tell us that we're under threat from a
terrible foe for guitar scratches

And to protect our Constitution, Gonna have to start a war
Gather up sons and husbands, leave them at the door.
Big man wants a pipeline, you're the one who's gonna pay

But have no fear America, challenges will be met
Oh but Man's a fool, Man's a fool putting his trust in you
Something's gotta give, Something's gotta give
When it's easier to live a lie and keep on keeping on
Something's gotta give, Something's gotta give, something's gotta.....
GIVE GIVE GIVE GIVE GIVE
Somethings gotta give around here

So have no fear! America, challenges will be met
Every day, In every way,
Every day, In every way,
We're gonna make the dream come true

Something's gotta give, Something's gotta give
When it's easier to live a lie and keep on keeping on
Something's gotta give, Something's gotta give,
Gotta try to find the truth then keep on keeping on
Cos I'm in fear!

Somethings gotta give around here. X2

Something's gotta give yeah
Something's gotta give now
Something's gotta give yeah
