My Spanish eyes delight in just where the fancy takes me
My troubadour is singing he is mine most of the time
Spanish eyes see things a little different
Spanish eyes see over the line
Play that guitar like it is on fire
Perfect words a dozen for a dime

Alejo (defender/protector or move away) x4
Can you feel it x2

4 bar break

My Spanish eye —led me onto a land of plenty
Just over look the players and/wend my way on by
Spanish eyes see things a little different
Spanish eye got plenty of time
Strumming fingers set me on fire
Stole my vision, body and/mind

Alejo (defender/protector or move away) x4
Can you feel it x2

Mini break into mid 8

When life is hard love is tired
and packing pistols is not allowed
Don’t take cover
Don’t lose sight
You can see it all with Spanish eyes

And now your falling falling falling falling
