Run Away 170 bpm

Drove ten miles there on an empty tank to meet a friend of the Lord, I think
Brother Jim tells me this won't take long but he's all juiced UP! WRITING a song
So I took a spin around the block, pulled up in a strip malls empty lot

Run Away now baby, run away
Run Away now baby, run away
Run Away now baby, run away, tell sister Maria you're okay

The he turned down this blind alley told myself know better just leave it be
Hit the ground for a beat then, guess what
A light from the sky came pick me up

Run Away now baby, run away, tell sister Maria you're okay

Hide my deep shame
I wanna do it over again
Feel like, I died
My cross, crucified

Run Away now baby, run away
Run Away now baby, run away
Run Away now baby, run away, tell sister Maria you're okay

Took a ride in the sky with my new friend went to heaven and back I think
My superior mother say that's all wrong but
I'm all juiced up now singing a song

Hide my deep shame
I wanna do it over again
Feel like, I died
My cross, crucified

Run Away now baby, run away
Run Away now baby, run away
Run Away now baby, run away, tell sister Maria you're okay
