Ruby Shoes - Radio Edit

Don’t know why I’m missing you
Took a twister for you to show me just who you are
Broke my heart, blew my mind
Might take some time to find myself again

Dissembler only serving you
Pulled the curtain, saw the wizard at your controls
Lost my mind followed my heart
Might as well have been the yellow brick road

But I got my ruby shoes and I’m gonna click my heels and go
got my ruby shoes and I’m gonna click my heels and go
You with all your cowardice and me with my tin heart
There’s not place like home, I’m going home
You can go back to Oz

Break

And as I descend I see my trust there it is in the rubble and dust
I was the good witch why so cruel got no thanks for saving the fool

But I got my ruby shoes and I’m gonna click my heels and go
You with all your cowardice and me with my tin heart
There’s not place like home, no place like home
You can go back to Oz
There’s no place like home, I’m going home,
You can go back to Oz

got my ruby shoes and I’m gonna click my heels and go
